1. The Office of Security has primary responsibility for occupational safety and health programs in the Agency. We have discussed the proposed Executive Order with them, and we both view it as having positive benefit in the administration of such programs within the Agency.

2. Identification of specific health and safety programs as funded items in the budget process will undoubtedly enhance overall program effectiveness. We do, however, have some concern over the possibility of unannounced inspections of Agency facilities, but we have been assured by the Office of Security that adequate safeguards currently exist to prevent such occurrences.

3. Please contact , Plans and Programs Staff, Office of Logistics, extension , if we can be of further assistance.
